

# Diversity in Neuroscience

## Career Development in Japan for Overseas Japanese Students/Researchers & for Foreign Students/Researchers in Japan

Date : Saturday, July 27, 2019 12:00-12:50

Place : Room 4 (301), Toki Messe, Niigata

／ Fumi Kubo (National Institute of Genetics, Associate Professor)

“My personal career path through Japan, US, Germany and back”

／ Takatoshi Iijima (Tokai University, Associate Professor)

“What should a postdoc abroad do to step up  
as a principal investigator in Japan academia? ”

／ Yoshika Yano (Niigata University, Project Assistant Professor)

“In the middle of the voyage: Juggling research and family life”

／ Dan Ohtan Wang (Kyoto University, Program-specific Associate Professor)

“Three home countries  
I have found through my academia career, so far...”

This workshop is devoted to discussion on “career development in Japan for overseas Japanese students and researchers, and for foreign students and researchers in Japan”. The four speakers will present topics, pose specific problems, and provide tips regarding challenges in advancing career in Japan, from the perspectives of current position, gender, and nationality. Participants may find advice on career topics such as job searching, networking, and more. Join us for discussion and a free lunch!

Organizers:

The Japan Neuroscience Society

Mayumi Nishi (Nara Medical University)

Wen-Jie Song (Kumamoto University)

Sayaka Sugiyama (Niigata University)

The Japanese Society for Neurochemistry

Chihiro Tohda (University of Toyama)
